2. Muhammad Saqib Ali (5000001146) F25-A.I sec:"D."

Project Idea: Travel/Tourism Website.

Idea:

We are creating a website named **"Travel sphere"** which is a travel and tourism website created using HTML, CSS and Java script (Optional) .The website aims to inspire people to explore beautiful destinations in the Pakistan.

By providing travel guide images and useful tips it is designed with simple user-friendly layout to make navigation easy, reliable and enjoyable.

Formation/Structure:

The project includes multiple pages such as Home , Destinations , Travel tips , about us and Contact. Each page shares valuable travel information and visually appealing content this project refers our team work and creativity and understanding or web designing concepts through Travel sphere. We aim to promote tourism awareness while enhancing our ICT and website development skills.
